(1) Avansia drivers for Avansia (Printer only, no lamination) and Avansia Premium Suite for Avansia Lamination (Printer + lamination).
(2) Compatible only from 22H2 version and later.
(3) macOS drivers managed by Evolis Premium Suite 2 (minimal version). DHCP network configuration not available on this version.
(4) Drivers for macOS are available for MacOS 10.6 to 10.11.
(5) Evolis Linux drivers have been qualified on Cent OS Linux 8 for RPM package and Debian GNU / Linux 10 (buster) for DEB package. Compatible and certified for Chinese OS (UOS, NFS, Kylin) but delivered upon request only. Other Linux distributions and ARM architecture are not supported by Evolis but installation is allowed.
(6) Android / iOS compatibility concerns Evolis Print Service app (mobile app available on Google PlayStore and App Store). Contact Evolis or check Evolis website for further details about compatibility with manufacturers models and Android / iOS versions.
✓: Microsoft Hardware certification approved (Microsoft tests have been validated on this version).
✓: Linux drivers for Badgy and Edikio printers delivered upon request.
